

LHP Hospital Group, Inc. (LHP) is a privately held company established to provide essential capital and expertise to not-for-profit hospitals and health systems. In cooperation with local hospitals, LHP forms joint ventures to acquire, own, operate and manage acute care facilities in small cities and select urban markets throughout the United States.

Our culture and the way we do business make us different from other capital partners. LHP, in partnership with local hospital leadership, creates a collaborative culture that protects each local hospital's mission and future. This collaboration also provides physicians with a greater voice in controlling the environment in which they work.

LHP's mission is to continuously improve the quality of healthcare services provided to our patients. We accomplish this by creating a collaborative culture that:

- Emphasizes improving the health of our patients by always focusing on their needs
- Fosters physician participation and involvement in hospital decision-making
- Involves local leaders in the governance of each facility
- Recognizes the value and contributions of our employees

We are a company dedicated to giving hospitals the resources they need to help take care of their patients, physicians, employees and community—above all else.

Headquartered in Plano, Texas, LHP is owned by affiliates of private equity firm CCMP Capital Advisors, LLC, and the CPP Investment Board, as well as certain members of management and the board of directors.

The board of directors consists of a group of executives with extensive experience in the hospital industry. They are as follows:
